# Qualifications for entrance

# Qualifications for entrance

The following list was published in June 2012. It is reviewed and updated annually and therefore is subject to amendment in future years. You are asked to note that applications will be considered on the basis of the list that is in effect at the time the application is received in the Admissions Office.

This section lists some of the qualifications that have been recognised by the University of London International Programmes as satisfying either the general entrance requirements or part of the general entrance requirements or the entrance requirements for one particular degree or diploma.

Qualifications that satisfy the general entrance requirements do not necessarily satisfy the programme requirements (where applicable). The programme requirements are considered separately and may not appear in this list.

All applications are considered individually on merit. Therefore, even if, according to this list, you appear to satisfy the entrance requirements, you may not be automatically eligible to register as an International Programmes student.

Please note: this list is given for guidance purposes only and the International Programmes reserves the right to amend it at any time. For the latest update, please visit our website:

[http://www.londoninternational.ac.uk/sites/default/files/entrance\\_qualifications.pdf](http://www.londoninternational.ac.uk/sites/default/files/entrance_qualifications.pdf)

The qualifications are listed by country and in accordance with the following key:

O	is equivalent to GCSE/GCE O level
A	(or AS) is equivalent to GCE A/AS level
S	satisfies the entrance requirements for the degree/diploma named
G	satisfies the general entrance requirements as a whole (please note that the programme requirements, where applicable, also have to be met)
