Dear Students,

We trust that this email will find you safe and well. We also hope that your **learning experiences and assessments** have gone well thus far, and you are prepared to apply the knowledge gained to excel in your upcoming End of Semester Assessments.

Below, we have provided information to guide you throughout your End of Semester Assessment period.

 - i) Project type assessments which are due on the date indicated by your lecturer.
 - ii) Timed Assessments which are scheduled on the Examinations Schedule.
2. Timed End of Semester Assessments (EOSA) will be done on the Moodle platform (**proctored exam – REGISTERED OVERSEAS STUDENTS**) as well as Face to Face (**for students who are locally registered**) during the period from July 30th - August 13th, 2024.
3. **Exams Via Moodle Platform (Registered Overseas Students only) – Proctored:**
 - a) **Ensure that your registration has been completed.**
 - i) It means then, that students may **ONLY** access the exam through the Moodle platform after **completing their registration as international student(s)**
 - ii) Students who **have not completed Registration should immediately contact the UCC Student Financial Services** (*see contact details below*).
 - b) Upon completing the exam, students will be instructed to upload the assessment script to the Moodle platform. **Students should not submit their completed exam script by email to the lecturer** or any other email addresses.
4. If you have challenges starting the exam or challenges with the internet connectivity or the Moodle platform during your assessments, ensure that you contact the Online department at ucconline@ucc.edu.jm.
5. If you lose internet connectivity during your assessment, you **WILL then do the following with your completed script.**
 - i) Continue working and complete your assessment during the stipulated time. **If your internet connectivity has not been restored when attempting to upload the assessment, please ensure that you make no further changes to the assessment document.** Once internet connectivity is restored, you should once again attempt to submit the assessment on the Moodle platform. **If you have challenges uploading your assessment to the assessment portal, please ensure that you proceed to submit the completed script to the “Late Submission Portal” on the course page.**

NB. You must proceed to submit the completed script to the “**Late Submission Portal**” on the course page on Moodle. **We will use the metadata in the file to determine if you have gotten an unfair advantage.**

- ii) If you lose electricity during your assessment, please advise the exam/online team of your challenge **no later than TEN (10 minutes) after the scheduled end of assessment.**
- iii) Ensure that all of this is done as soon as possible, sanctions are applicable for submissions **beyond TEN (10) MINUTES** of the end of assessment.

6. If you continue to experience challenges, proceed as follows:
